"A Statistical Profile of Artists in Canada in 2016 (With Summary Information about Cultural Workers)," *Statistic Insights on the Arts*, Vol. 49 (revised), November 2019, <<https://hillstrategies.com/resource/statistical-profile-of-artists-in-canada-in-2016/>>. In this report, the term "artists" is used to describe those Canadians 15 or older reporting employment or self-employment earnings in nine occupation groups that were identified as artistic in discussions by arts sector representatives prior to the analysis of the 2001 census. These include Artisans and craftspersons, Dancers, Musicians and singers and Visual artists, among others. In 2008, the nine occupation groups were reconfirmed as priority occupations for the *Statistical Insights on the Arts* series during discussions between Hill Strategies Research, the Canada Council for the Arts, the Ontario Arts Council and the Department of Canadian Heritage.
